“ If there’s anyone (besides my own mother and father) that I owe a debt to in this world, it’s Phil Whisner. He was like a father to me. A great role model. He taught me about body work and paint on cars. He employed me for a good 5-8 years. I spent a lot of time with him. I am grateful for these years. You are gone too soon my man. Autorama will not be the same without you, but your art lives on in peoples vehicles, and your son also perpetuates it. God speed Phil!

“ A man of few words but a lifetime of loving actions. He was a man I admired as a father. He was always there for Jamie and I. If we asked for him to move a car out of the way to play basketball it was done! If we asked for Phil to be our baseball pitcher so we could play baseball it was done! If we heard the ice cream truck and asked for some it was given! Phil was always working hard but he was never too busy to be with Jamie and I. He was never too busy to eat dinner with his family. I had a wonderful time growing up with Phil as my best friends Dad. He will be missed but always alive in my heart with fond memories.

Love, Jennine Crosby
