“ *I had a wonderful childhood as Docs neighbor, and was best friends with his nephew, Bob. We used to fly model airplanes and rockets and drove Doc nuts with the noise and fuel getting on his driveway.*

When I was 12, I broke my arm in a near compound fracture. I was terrified, but Doc let my father help him set it, I knew I was going to be fine, because Doc AND my dad were there!

The Jones were great neighbors, and I really miss them all!

“ To the Jones Family. Dr. Jones will surely be missed... Personally, I did not know him or the Family. However," one scripture that really helps us to cope when we lose a loved one to the enemy death. (1Corinthians 15:26) Jehovah God the almighty did not purpose for his earth to be ruined or for his human creation to die. This was not his original purpose. (Genesis 1:28). We can see that by reading Psalms 90:10 "In themselves the days of our years are seventy years, And if because of special mightiness they are eighty years. Yet their insistence is on trouble and hurtful things; ...So this verse shows that Man lives 70-80 years and even over 100, because of special mightiness to which Mr. Jones lived. But we were made to live forever on paradise earth and our first parents Adam and Eve forfeited that. Nevertheless, Jesus Christ paved the way for the resurrection and the prospect of eternal life. “ Asa was a sweet man, so sentimental. He got back on his feet after an emergency bypass in about 2000 in Orlando with us and soon was sending cards and calls from the Amazon! What an intellect, who had the respect of his colleagues and a lifelong friend of the Cheng Family. I only hope to live half the life he did. We will miss him and count among our blessings the precious time we had to spend with him.

“ God bless this dear man! We moved to Hot Springs Village in December of 2006 and as fate would have it, we were his next-door neighbors. He was a very independent man but always seemed so grateful when Tom did little helps for him such as carrying his 42" TV in the box to his house for him. He was struggling with two canes, but was too proud to ASK for help. We knew his days on this earth were numbered when he had paramedics out due to several falls, but he always refused transport to the hospital. May God bless him in his next life.

“ I was in a serious accident and had Dr Jones take care of me at SRMC. He was a crusty guy with a heart of gold. I'll never forget his stories or the excellent care he gave me so many years ago. I often wondered about him, glad to see he got to live a full life. God bless!
