“ I am soo grateful that I can say I have soo many beautiful and unforgettable memories with Bunny. The one memory that always comes to mind is the one time she went grocery shopping with me and she would just push a cart and smile at every single person that we walked by. The second she would see a baby she would just stop and go up to the baby and try to pick it up. Even tho the mom didn't know bunny , she didn't panic and she could just tell that Bun was just full of love. Everyone that has met Bunny here at Grace Homecare has gotten so attached to her. She is a person who brings soo much positivity and we will never forget the precious memories of Bunny getting the door with us when the doorbell rings and Bunny just greeting everyone and making everyone feel welcome. Bunny became the most popular resident at Grace Homecare. Everyone knew her name and everyone still asks about her. She is truly one of a kind and the closest thing to an Angel. I will never ever forget her and she will always be a very special person to me.

*My condolences to the family. Nancy , Bill, Tim and Barb , I hope u guys visit us so that we can always share our beautiful stories of our Bunny.*

*Cristina, thank you so much for your beautiful words about Mom. You and Grace Homecare were an answer to prayer when Mom needed a place to complete her life on earth. You and your staff members provided the kind of love and care that we so wanted for Mom. Please give your whole staff our love and gratitude.*

“ Nancy, your mama was always so sweet to me. Even after Tim and I went our separate ways, she still treated me as a member of the family and I will always be grateful to her for that.
