“ *Uncle Craig was my only uncle on the Kiester's side of our family. When he was younger used to have some cool cars. He had an Jag, 64 Corvette and a Buick Riviera. He worked at Detroit Gage and Tool as a tool maker. He Also worked at Frank's nursery. One of his fondest memories was a girl that he dated in high school named Chris. He liked taking her to the show, zoo ? and making out at the drive-in. He also loved going fishing up north with his brother Lowell and his father Frank and has memories of them filling up their stringers of small bass fish. He loved spending time with his mother Mary, and he enjoyed her cooking. He also loved to play the piano and he enjoyed reading the Bible. He cared for many dogs and one of his favorite dogs was Skippy a white German shepherd and lobo who was the son of Skip. He is missed by all niece Cindy and nephews Lowell Jr, Tim, & Vernon.*
