Tribute Wall

TS

“ *Very sorry and saddened to hear of Dennis's passing. I was Dennis's manager at Bosch for nearly 20 years until he retired. He was a very good electrical engineer, and he was instrumental in our business's success. Dennis was the lead electrical engineer for several of our Electronic Control Units that we supplied to Polaris and Bombardier (BRP), and he certainly has his indelible "imprint" on hundreds of thousands, if not more than a million vehicles that Polaris and BRP produced from approx 2005 until today. Anytime you see one of those vehicles on the road, or on the water, or on a snowmobile or ATV trail, you can know that Dennis had a hand in seeing that vehicle "come to life". Outside of work, I recall Dennis often talked about his grandson and enjoyed spending time with him. I'm sure he will be missed by his family. Sorry I'm unable to attend the service. May he Rest in Peace.*
