JG

“ I'm sad to know of Aunt Faye's passing. I have wonderful memories of her. She always had a pot of coffee on at her house. My Mom, Carol always called Faye her best friend. They enjoyed speaking to one another regularly. My parents are very sad. She gave me a set of "copper" candlestick holders, that I treasure because they are from her. My sincerest condolences to Patti, Todd and especially Zach on your loss.
Love, Cousin Jenny G.

“ Aunt Faye was a force to be reckoned. She was married to my Mother's older brother Bill. When you spent time with her she was not the "in-law" she was part of the family. She adored my Grandmother Hilja. Faye was a Finn through and through she knew the language the stories and and she had the quiet steel will that is also known as SISU. I can still hear the cadence of her voice which speaks to her roots. I also hear her sharp wit and astute observations. I will miss the way she saw life and the way she expressed herself which could make you fall right out of the chair. I did not see enough of her but the times I did are seared in my memory bank. You know the ones you keep and they do not fade because they taught you something about courage and life and love. Safe and peaceful journey Aunt Faye. So glad you were here. Love Deb S.
