To the greatest grandmother to ever be. Granny Sue you were such a wonderful, strong, sassy, and beautiful person. Missing you has been the hardest thing I've ever gone through and I just miss you more everyday. You were such a bright and positive person in my life and I cherish now more than ever those years I lived with you and papa. All those late night criminal minds binges.. to all the long deep conversations.. the fights.. the laughs and just being with you everyday. I miss the after college classes days where Jenna and I would come and visit you and stay for hours just talking about nothing. I hurt knowing I could have spent more time with you as life just kept going by faster and faster. I wish I had kept my promise of seeing you more, because now I would do anything just to see you one last time and to hear you say you love me. You taught me how to be a good partner to my soulmate by watching how you loved and cared for Papa and for that I am forever grateful. I will cherish our memories for the rest of my life. Granny Sue I will miss you everyday for the rest of my life. I love you so much!
