“ *My heart-felt prayers go to the Noack Family as well as closed friends. I is a horrible time to lose someone you love. One scripture of many in God's holy inspired wrtings is what gives a something to hold on to and to give us a Bible-based hope for the future. A man named Job who was an integrity keeper and a faithful man who lost his livelihood, his 10 children and his wife wanted him to curse God and die, but Job kept his integrity even though he was going through a terrible time in his life. he even wanted to die and to be kept safe in sheol (mankind's common grave until relief came) This account shows that Job asked the question if abled-bodied man dies can he live again? at:(Job 14 verses 13 thru 15) Despite the terrible things God allowed him to go through from Satan the Devil, Job did not ascribe anything bad to God. Showing that Jehovah God will allow us to go through things and that we have his unfailing promises that he will provide relief soon. He will call the dead will answer at his appointed time.*
