“ 20 years I have been blessed and honored to have you as my father in law. You not only had my respect, but my friends as well. As this picture displays, you were always the instructor sharing your vast automotive wisdom. You accept my daughter (Kendra) as your granddaughter. I will continue to protect and care for your your daughter. We all love you and look forward to meeting again in God's arms.

“ John was a part of our family for more than half of my life. He loved his wife (my sister) and his boys and his grand babies so very much. His battle these last few months broke our hearts and our hearts broke more when God called him home. John, I'm honored to have called you my brother-in-law for all these years. You are deeply missed.

I knew John as first as a Experimental Build Up mechanic. John went on to become a Transmission Calibrator for the FN-36 (Crown Victoria) and was very successful. He was unusual in that as I recall he didnt have an engineering degree. That was back when FoMoCo recognized true talent and reworded a guy like him for that talent. He was in some ways a legend! I was fortunate to know him.

“ *Dad. My hero, my role model, my best friend. Sad doesn't begin to describe how I feel right now. I miss you so deeply it physically hurts. I lost a part of myself when you took your last breathe. I know that life goes on, but I don't want it to without you here. I will strive to honor your memory in every way possible as long as I continue to draw breathe. Your legacy will never be forgotten. You were and always will be the greatest man I've ever been blessed to know. I love you more than anything... be at peace now*

“ You are my hero! You fought a battle on many fronts but you were so, so tired. Life will be very different without you, but we will work our way through this deep sadness and find peace. We stand on the sidelines and cheer you on, as you race down the racetrack in the sky. Love and miss you.

“ Thoughts and prayers for the Gorys family. Very sad to hear. Johnny was a close co-worker and friend for many years via Ford. A great mind for all things mechanical and always willing to learn and take on a challenge. Great guy.
