“ I just met her couple of weeks ago at my cousins home! We, my parents used to live in ugamedi back in sixties when I was a little girl! There was a theft at our next door neighbor's house, where we shared front yard, in that incident my brave mother kashinen patel played an active role! After all these years kantaben told the story with such a minute detailed as if it had happened yesterday!!! We all laughed because my mom's brave actions had made the thief's run away!!!!

Kantaben shared that she was a new bride in the home just two doors down from us! And I remembered eating carrots for snack given by them!!! What a sweet encounter I had meeting her after sixty plus years! I was so tickled by her presence and sharing her memory of my parents fearful experience in a funny way! What a sweet lady!!! We will miss her dearly!!

Prayers for the departed soul and family to bear the loss!!! 🙏🙏🙏
