“ Throughout my apprenticeship Lonnie was a huge help on anything I had a question on. He had a huge impact on me in the way to troubleshoot a problem on the line. First and foremost he was a great man. Always fun to talk too, sharing stories.... he's going to be greatly missed. To the family I send my deepest sympathies and you are in my prayers. Ford has lost an amazing talent and this place won't be the same without him.”

“ I had the pleasure of working with Lonnie at Wayne from 1995 to 2001. What many others have said is so true...a great engineer, a trusted colleague, but most of all a good person. Lonnie will be missed. My family's prayers are with you.

“ I am forever indebted to Lonnie. He was a valued colleague, mentor, and friend. I learned so many things from him through the years. He taught me how to be an engineer, how to refinish furniture, how to keep a Christmas tree fresh, how they make Polish sausage, and how to be a friend. You could always count on Lonnie for an answer and a joke. I will miss his knowledge, humor, and friendship. May God help ease your pain in this time of need.

“ Lonnie was very methodical, thorough and well composed at the time of crisis; yet keeping the humor in a subtle smile. He was non-intrusive and very accessible! He used to care and ask a lot about Bangladesh- my native land and took a fancy on my small rickshaw gift to him. During my 2001-2004 work at Wayne Focus launch I came in contact with him. I can't forget the way he used to peel orange; scribe with a knife at the top, then the sides- very methodically...It's sad to know that no one would call on the Wayne radio any more, " Lonnie Merchewka, Lonnie!!" Well, no! someone might still do it out of instinct. They will be saddened after a long silence on the other side!..
