“My Marco, my brother, my champion, my confidant, uncle to my children and godfather to my daughter. I can't begin to share the 40 years of memories that flood my heart, mind and soul. I have looked up to you my whole life, just admiring your drive to exceed and accomplish your dreams. From the time we were kids, you would set a goal and reach it. From the karate kid black belt competing in the Jr. Olympics, to the guy finishing nursing school and wanting more... Your energy that lit up a room and your larger than life personality captured people for a lifetime. I've always known that, but when you have hundreds of people gather at your funeral from all walks of life, you realize the impact you had on people. Your inclusive personality and genuine care for others resonates with all you meet. Dr. Blondy (our childhood pediatrician) talked to me for 15 minutes about your wit and motivation, there's a connection there far beyond words. He knew he was your mentor and he knew you looked up to him. He is proud of you, as we all are. I enjoyed talking to our family, your friends, patients, colleagues and classmates. I enjoyed the stories and the connections each person had with you. It is healing to me to know that I am not alone in this suffering and loss.

Growing up with you was quite the experience to say the least. The days of watching you climb up the tree to get onto the roof and the many hours of us swimming in our backyard pool. Or what about all the times you terrorized Avo and Joanne down the street. We lived on the same street as my dad's cousins and Marc loved to sneak around their house, change the channels on their TV from outside their picture window and the list of pranks go on. We eventually moved to Plymouth where we began our teenage years. I couldn't love it more than when you told my friends and me to climb into the back of your truck and you would take us for a ride down Main Street. Oh that bumper sticker..."No Fat Chicks" offended many. Listening to you punch the punching bag in the basement that shook the whole house was intense. Your energy and workouts inspired me. Soon began your college years at Madonna and the birth of Marcus. Thank you for Marcus. He's been my strength the last several days. Watching him grow up has been so amazing. I

*remember you telling me you had a position for him at your new pain clinic and he was going to be set for life. But, now what? We don't know, but he will be ok. We all love him and will make sure he is ok. I remember the nursing girls coming to the house to study...all the time! Nothing like making a pot of coffee at midnight and pulling an all-nighter to study for that final exam. Next came medical school in Grenada. We missed you so much and I watched mom and dad pay large phone bills just to hear your voice whenever we wanted to. I'll never forget when mom and I visited you in Grenada. I was amazed at this beautiful school in the heart of this small Caribbean island. You sure did show us a good time. After medical school, you met Renee. Your love for her was evident from the beginning. You were so open with how much you loved your nay, nay. Next, came those 3 beautiful babies that we will love and cherish forever. Many great years of driving up Woodward for the Dream Cruise, the family BBQ's, birthdays, graduation parties, etc. Our family dinners will be missing you forever.*

*The memories of us will live with me forever. I'm so glad we had the chance to vacation together this past summer. I'll cherish the days we swam with our kids and took them fishing. We enjoyed the golf cart and playing in the sand. Our breakfasts and dinners together will always be remembered. Our boisterous, loud and fun loving conversations around the campfire make me smile. You filled the room with positive energy. I loved when you just couldn't say no to the kids. Anything they wanted, they got. If they wanted another s'more or to stay in the water a few extra minutes, you let them... and oh, how you spoiled them. You loved to just give, give, give! My heart is hurting, but I find comfort that you are at peace. I look for your signs here on earth and I know you are still with us in a different realm. I'm blessed to know you and I'm thankful that you left us your legacy...your beautiful family. Until we meet again, bro. Love, your sis...Nicole (Nic)*

“ *To the Orlewicz family,  
Marc grew up next door to us in Dearborn Heights. We've known him and his family since 1974, and they have been part of our family since then, all of Marc's life. Working at the DMC, I've seen Marc professionally, also. Marc was a wonderful person and friend . He did so much blessed work for all who knew him. It is my honor and privilege to have known him. This has been a huge shock and a devastating loss, leaving so much grief for family members and friends. I am so very sorry for the loss. I'll continue to pray for Marc and his intentions, and for his family. May you find comfort in your faith. From Ann and Onorio and Penny.*

“ I worked with Dr. O. at Royal Oak Surgical Center and I remember working one night, he's waiting for his patient to recover, he said, "Hey! Do you want to watch something cool? Come look at this..." He showed us a video on YouTube that was a compilation of old school stuff 📺, clothes, toys 🎮, games 🎮, etc. while it played 80's/90's 🎵 music in the background. We reminisced and laughed about it!

I'm sending prayers, peace, blessings and my condolences to the whole entire family. May he ready in paradise 🙏😊

“ *My strong and handsome brother, Marc! You will always be my Marco, my "Bar", my big brother. My heart is aching and I am in so much pain missing you. You lit up every room that you entered and your spirit was contagious! I loved you so much. Your ability to connect to others inspired those around you and you made every person feel loved and valued. Your work ethic and medical knowledge saved lives everyday. Your children were blessed to call you dad and your legacy will live on through their lives. As their auntie, I will commit my love, my time, my resources to loving them and investing in their lives. They will know what a wonderful man you were...husband, father, brother, doctor, friend and son. You were such an amazing son to mom and dad. You loved them dearly and your relationship with them was so special. I adored you as a little girl and thought my big brother was so handsome, funny and smart. Your little sister is so proud of you and will keep your legacy alive.*

“ *Dear Renee and Family,  
I'm deeply sorry for your loss and my heart aches for you and your family. I lost my husband 5 years ago and I know what it's like to lose a husband, your best friend and a great father to your children. No words can describe one's pain or loss, but with faith, hope and trust in God He has a beautiful plan for each of us. Our husbands are now safe in His loving arms with no more tears and suffering for them. As for us, we have the loving support of family and friends and strength God will give us to walk this journey with Him. I can't say it's easy, but comfort and healing follows during this grieving process. May Our Lord and Blessed Mother wrap their arms around you and your family during this difficult time giving peace, comfort, healing and hope. My deepest sympathy and love. Victoria*

“ I worked downtown at the pain clinic when Marco was a resident & later attending. He always offered a smile & some light hard-harassment. I'll forever remember the look on his face proudly showing a picture of his baby (at the time) girls . I didn't know him well, but I knew he was happy to be a dad.

*"Although it's difficult today to see beyond the sorrow, may looking back in memory help comfort you tomorrow"*

*My deepest sympathy. May peace and love fill your heavy hearts.*
