“ *We are so very sorry to hear of Mike's passing. We remember Mike as little guy so full of happiness and energy, always looking for what's new. I also remember him as a young patient admitted for surgery on my floor at Children's Hospital. Some of my colleagues were inspired by Mike as a patient. We were all inspired by how all of the family was very protective and looked over Mike at that time. I believe Mike was a little hero who could overcome many things. I also believe he grew up to be a fine young man. He was important and made a difference in the lives of the family and people around him.*
