“ *My memory of Nancy (Aunt Nancy) was a loving one. She always had a beautiful smile on her face. I hadn't seen Nancy for many years unfortunately as I live in New Hampshire. I remember how I used to play in her old bedroom in grandma and grandpa's house. I loved playing in her room as a little girl. She had this wonderful little cubby closet that still held many of her precious toys and always let me play with them. She was so very lovely. My prayers and thoughts go out to the family. 💕*

“ *Nancy left every room she entered feeling lighter with more oxygen to breathe. I have never met anyone else like Nancy: she always had the right words for the right time to the right person delivered in the right way. Her compassion, guidance, perspective and humanity will be sadly missed.*

“ I can't even believe this. She influenced me in so many ways as a teacher and then as a principal. I remember the day in class she said she was going to be promoted to principal... she was as happy as she could be! Not just In female topics class but in everyday life she taught us all about what being a female meant in today's world. To be strong, independent, kind, and compassionate. The world lost an amazing soul, but she will forever be remembered in our hearts.

“ Ms. Nancy was probably the most important teacher I ever had in high school. I wish every young woman could have an influencing educator at such a time in their lives. She taught acceptance, tolerance, and compassion by showing those traits every day at school. She will be missed greatly

“ To all of our family, Christine your mother, my aunt was like an older sister to me. We were only 20 months apart in age. I always enjoyed the time I got to spend with her. Sitting on the back porch watching the heat lighting in the summer or sitting in the big swing on the front porch watching what went on in the neighborhood. I took my first city bus ride downtown to see a movie with bed by by by ourselves without any adults who by ourselves without any by ourselves without any adults. A very special memory was sitting on her living room floor coloring while her dog hinnie laid beside us. She doing that with me when we were young is what guided my interest in being creative. Her brother, my father, Bill Bailey as also creative and he used that talent in his career. We all missed Nancy when she moved from Kansas City. Not too long after Nancy moved my father and mother and Kathy, Dottie and Judy, my sisters and her neices, moved from Kansas City also and we lost contact with her. I pray that God lays his loving hands on you and the rest of the family to help with the loss of a wonderful lady. Blessings to all.

“ In one of many of our discussions about our loves and passions, Nancy shared with me that she had always wanted to write a children's story. In her memory, I have added to my bucket list of things I plan to write before I leave this world a children's story about accepting and celebrating differences. It will be loosely based on Nancy's story about the color coded according to size swimming suits that she and her classmates were forced to wear in gym class and the sympathy she had for the girls who didn't fit "the normal size" suit. I celebrate Nancy's honesty and heart; the world is less due to her absence.

“ To Christine, Tony, Barb and David and the rest of your family. It has been so very long since we have seen any of you, and some of you I have not met. But I want you to know that Nancy, (aunt Nancy) was and is a jewel in our family. She was always kind and considerate and a true blessing to us and all of you am sure. Truly a beautiful person inside and out. I hope you are blessed with only loving, and comforting memories and all the love I know she would want you to have! God Bless you all!
