“ My condolences to the family and friends of Bob Peterson. I was saddened to hear of his passing.
I first met Bob in 1970 when I visited Peterson Die and Engineering with my father who was employed there at the time. My first visit was met with enthusiasm from Bob as a mere 13 year old kid. Bob quickly put me to work with a broom and the keys to the vending machines which needed a quick clean and filling. Bob taught me many skills and philosophies that I continue to reflect and apply today. My favorite philosophical accusation, “ You May Not Be Good But You Sure Are Slow”, I have recounted that phrase countless times in reference to myself and people under my employ for many years. Bob taught me to stand my ground when discussing stuff, he allowed me to succeed and also to fail with dignity always requiring me to correct my every screwup. Bob always made me feel like a part of the family which I reflect on often. As a business owner I often think, What Would Bob Say or Do. He continues to impact my daily life.

Thank You Bob!

*Sincerely
