“ I worker with Suean . When I started bring my crafts to work and sell them Sue bought several things from me. Sue had several times fixed my mistakes that she found.in assembly. She would do this for other people to .for she had a big heart. She was very proud of her daughter and talked about all the things her daughter had done and the things that she had done with her. She will be missed by the ones that were her friends, but never fogotten by the ones that loved her the most.
